

Dear Friend of Brookline,

I lived the first year of my life alone in a barn stall. My name is Murphy and I was a breeder dog with no name and no human interaction. My owner was unable to sell me and luckily, let Brookline take me. I cowered when my foster parents first tried to pet me but soon learned I was safe and wanted. After a vet check, it was discovered that I had a luxating patella (kneecap issue) and needed surgery. After a post-surgical infection and weeks of rehab, I recovered and blossomed. I'm living the good life now with my forever family thanks to Brookline.

Before Brookline

Recovering from surgery

I'm a lucky boy!

Murphy's medical expenses totaled about \$7,300 but it is foster dog Fernie who is setting the record for the year. So far, we've spent more than \$25,000 for several abdominal surgeries, a special diet and training. Your donations make it possible for Brookline to help both of them plus many other Labs in 2025. The number of dogs coming to us needing medical interventions and extra training continues to rise. We are often their last hope and we don't want to turn any of them away. Thanks to the generosity of our donors, we haven't had to do that.

We're an all-volunteer organization and our members work hard throughout the year to raise money through merchandise sales at events and online fundraisers — but we really need your help! The majority of our funds come directly from individuals like you — Lab lovers, previous adopters, and members of the Brookline family. Our expenses far outweigh the adoption fees we collect for our dogs. Veterinary costs for the year have exceeded **\$160,000** — more than 61% of our total expenses.

We know how much you love Labs and your gift can save lives. With your support, Brookline can continue its mission of rescuing Labs, providing the care they need and carefully matching them to safe and loving forever homes. There's no greater reward than knowing you've made a difference in the life of a dog in need.

Please send your gift today and you can make an immediate impact. Checks are payable to 'BLRR' and don't forget to ask your employer if they participate in donation-matching programs. You can also donate [online](https://brooklinelabrescue.org) at [BrooklineLabRescue.org](https://brooklinelabrescue.org). Thank you so much for your help.

Sincerely,

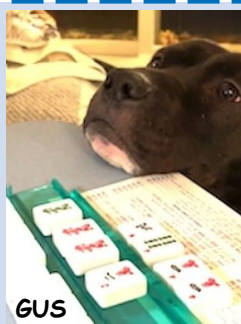

Sharon Frey, Treasurer

P.S. Your gift will make a difference today!

GUS

Gus will win your heart!

Gus is a four year-old Lab mix full of love and adorable antics. He's an incredibly affectionate dog and would do best in a single-dog home where he can be the center of attention. He is a great companion and loves spending time with his people. His foster home is working with him on leash reactivity and he's making progress. He's always up for a game of fetch or a walk.

Gus is available for adoption. Please

check his [blog](#) on our website for more details. *Thank you!*
